

June 3, 2020

Due to the evolving COVID-19 pandemic, its impact on community health, and the uncertainty of local and state restrictions, the Badger State Tractor Pullers 2020 season of events is canceled. The BSTP Board of Directors considered input from promoters, members, and other associated businesses. This decision was most difficult, and made out of an abundance of concern for the health and wellbeing our members, staff, promoters, sponsors, and especially our fans.

We look forward to providing our fans with horsepower entertainment once again. Planning for a full season of events in 2021 is underway. Until then we encourage everyone to be safe, support your local small businesses and all facets of agriculture.

With warm regards,

*Badger State Tractor Pullers, Inc.*
